Full-stack developer with a frontend focus who builds production apps in React, TypeScript and Next.js for very different users: analytics dashboards for brands like Oatly, a sports-tech platform, a heritage railway federation whose audience is mostly 55+, and AI for retail. Sole frontend developer at Aeoflo with full ownership of a 20,000+ line codebase. Graduated from Hyper Island in March 2026 and has kept shipping since.

EXPERIENCE

Volunteer Full-stack Developer & Digital Lead · FEDECRAIL

Jun 2026 – Present

Remote · European Federation of Museum & Tourist Railways

- Lead the website redesign and modernization for a federation of heritage railways across Europe, building the new site end to end.
- Run UX research with a user base that is mostly 55+ and turn the findings into accessibility-first design decisions.

Co-founding Engineer · AI Beauty Recommendation App

2026 – Present

Stockholm

- Build an AI-powered beauty recommendation app for in-store retail kiosks, full-stack from concept to product.

Frontend Developer Intern · Aeoflo AB

Sep 2025 – Mar 2026

Stockholm · Venture-backed AI analytics startup

- Sole frontend developer with full ownership of the frontend, shipping production features independently.
- Built the company website from scratch (20,000+ lines) in Next.js, TypeScript and Tailwind CSS, including a blog, dark mode and HubSpot booking.
- Designed and built a multi-client analytics dashboard platform used by Oatly, Stiga, Billhop, Norstedts and X-peng. Its JSON data model means adding a new client needs no component changes.
- Refactored a ~4,000-line Shopify app into modular React components with error boundaries, custom hooks and documentation.
- Integrated the HubSpot API, Cloudflare R2 and Clerk authentication with Zod-validated forms.

"Any team would benefit from his work ethic, technical skill, and positive attitude." Antoine Abribat, Co-Founder & COO

Next.js · React · TypeScript · Tailwind CSS · Framer Motion · Chart.js · shadcn/ui · Clerk · Zod

Frontend Developer Intern · Sportly

May 2025 – Sep 2025

Stockholm · Sports-tech platform

- Built responsive UI components and features in React, TypeScript and Tailwind CSS, consistent with the design system.
- Worked in an agile team of developers and designers to deliver new features.

Assistant Restaurant Manager · Max Burgers

Mar 2020 – Aug 2024

Stockholm

- Ran daily operations and led the team when the manager was away. Recruited, trained and coached staff and shift leaders.
- Handled financial reporting, closing, monthly inventory control and staff scheduling.

- Helped staff and citizens with hardware, software and digital services, and ran workshops on using computers.

PROJECTS

Vidare · [sl-compensation.netlify.app](#)

Sep 2026

- Concept app that books a stranded SL traveller's taxi home and claims the fare back from SL under Swedish law. Built solo in five days: ~10,800 lines of TypeScript and 108 unit tests.
- Every external service (SL data, taxi, payments, BankID) sits behind a typed interface, so real integrations can replace the mocks without touching the UI.
- Scroll-driven 3D Stockholm with reduced-motion and no-WebGL fallbacks, Swedish and English, works on phones from 360 px.

Next.js · TypeScript · React Three Fiber · GSAP · Zustand · Zod · Vitest

BuzzyJeopardy · Real-time multiplayer trivia

2026

- Every player buzzes in from their own phone. Firebase keeps game state in sync and handles buzz-in race conditions, and Gemini generates a full five-category game in one call.

Next.js · TypeScript · Firebase · Gemini API · Framer Motion

Death Calendar · Native iOS app

2026

- Visualizes a lifetime as a grid of up to 29,000+ dots with lazy rendering, MVVM architecture and local-first storage.

Swift · SwiftUI

EDUCATION

Frontend Developer Program (FED26) · Hyper Island

2024 – Mar 2026

Stockholm · Two-year YH program (400 YH-poäng)

- React, Next.js, TypeScript, Node.js/Express and MongoDB, agile teamwork (Scrum, Kanban), UX/UI in Figma and automated testing.

Land Surveying, three semesters · Damascus University

2014 – 2015

SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, HTML, CSS
UI & motion	Tailwind CSS, shadcn/ui, Framer Motion, GSAP
Backend	Node.js, Express, REST APIs, Supabase, PostgreSQL, MongoDB, Firebase
3D	Three.js, React Three Fiber, WebXR
Testing	Vitest, Jest, Zod
Tools	Git, Docker, Figma, Netlify, Vercel, Cloudflare
AI	Gemini, Groq, Claude Code
Mobile	Swift, SwiftUI
